Description

The Southeastern Trauma Symposium is a two-day conference designed to include interests of all trauma care professionals. The conference addresses the clinical management of the trauma patient beginning with pre-hospital through acute care and rehabilitation. Trauma professionals will present the most current concepts in trauma care.

SYMPOSIUM OBJECTIVES

Following this symposium, the trauma care provider will be able to:

1. Evaluate and manage adult and pediatric trauma patients utilizing current trends and evidenced based medicine.
2. Examine contemporary clinical issues in life threatening injuries from the trauma environment.
3. Describe management of the trauma victim across the care continuum.
4. Discuss an organized approach to critical decision-making in regard to trauma care issues.

EMS CEU'S

9.75 CEU's have been approved by SC DHEC Division of EMS and Trauma.

NURSING
